

# SHOUT POSTCARD™

Sharing Life's Events on the Go – with Shout Postcard™

*"I share moments from my vacation with people back home."  
– Suzy Flores*

### NEW MOBILE TECHNOLOGY

Shout Postcard™ allows you to use a Palm® Treo™ smart phone or PC to combine a photo, audio, and a text message into a multimedia postcard and send to people you care about. Share your life's experiences with those closest to you. Send a postcard of baby's first steps to family and friends. Send a quick postcard of the exciting sports event you are attending. Are you standing in front of the most memorable sunset and want to share it with others? Do so instantly with Shout Postcard.

### SHARE IMPORTANT EVENTS WITH ANYONE, ANYTIME

You've sent postcards in the mail, now send them instantly from your Palm Treo smart phone. Shout Postcard captures photos and audio on your phone that you can send to friends, family, co-workers, fans, or anyone in your social network, anytime and anywhere.

### SEND AND RECEIVE SHOUT POSTCARDS ON YOUR MOBILE PHONE OR VIA E-MAIL

Shout Postcards are sent either to a recipient's e-mail in-box or to their Palm Treo phone. Shout Postcard can also be used directly from any PC with a standard web browser. Simply go to [www.shoutpostcard.com](http://www.shoutpostcard.com) and begin creating Shout Postcards immediately. Upload photos of your vacation and send them to friends. Combine music and audio for more professional looking and sounding postcards from your PC. The web version will also keep a multimedia log of all sent Shout Postcards, whether sent from the web or smart phone.

Shout Postcard can be used with any mobile service provider and is currently available for Palm Treo smart phones based on the Palm operating system.

### FREE AND COMMERCIAL VERSIONS

Shout Postcard is available free of charge via download at [www.shoutpostcard.com](http://www.shoutpostcard.com). The free version supports up to five recipients. Shout Postcard commercial edition will soon be available for purchase and can support large groups of recipients.

### BEAM ME!

Want to share Shout Postcard with other Palm Treo smart phone users? Simply beam the small client to others and immediately begin sharing Shout Postcards.
